

Subject Index to Volume 39

A

- Acid-base regulation**
in medullary thick ascending limb, F691, F711
- Acid/base transport**
in model of proximal tubule brush border, F344
- Acidosis, metabolic**
effects on apical hydrogen ATPase-related studs in A-type intercalated cells, F649
effects on apical hydrogen-potassium ATPase in intercalated cells of cortical collecting duct, F539
- Acid secretion, renal**
in rat inner medullary collecting ducts, ammonium and, F432
in rat medullary thick ascending limb, F691
- Actin**
F-actin, in apoptosis of renal proximal tubular cells, F593
 α -smooth muscle, in phenotypic shift of glomerular mesangial cells in nodular culture, F614
and tissue remodeling, with TNF-induced apoptosis in renal epithelial cells, F869
- Actin cytoskeleton, see Cytoskeleton**
- Activator proteins, AP-1**
and matrix metalloproteinase-3 expression in mesangial cells, F806
and matrix metalloproteinase-9 expression in mesangial cells, F123
- Adaptor protein**
src homology domain-containing (Nck), association with cytoplasmic tyrosine kinase pp125^{FAK}, thrombin and, F295
- Adenosine**
and glucose transport, F263
role in renal function, in hypothyroidism, F254
- Adenosine 3',5'-cyclic diphosphate ribose**
cytosolic calcium response to, in osteoclasts, F469
- Adenosine 3',5'-cyclic monophosphate**
agonists, effects on anion transport in inner medullary collecting duct cells, F131
- Adenosine receptors**
luminal, sodium channel regulation by, in A6 distal nephron cells, F798
renal A₁, upregulation, renal effects of, F263
- Adenosine 5'-triphosphate**
depletion
in proximal tubule cell injury, F39
renal epithelial cell survival after, effects of prior heat stress, F1057
inhibition of sodium and calcium reabsorption, via protein kinase C activation, F53
- Adenylyl cyclase**
activity in renal cortex, amylin and, F289
- Adrenal steroids, see Corticosteroids**

- α -Adrenergic receptors**
 α_1 -, in neural control of chloride absorption in rat proximal tubule, F1049
 α_2B -, immunolocalization and regulation by potassium depletion, in rat kidney, F1015
- Adrenomedullin**
intra-arterial administration of, renal responses to, F200
- Albumin**
proximal tubular delivery and absorption, in nephrotic rats, F986
- Aldose reductase**
osmoregulatory role in JS1 Schwann cells, F90
- Aldosterone**
plasma levels, and systemic nitric oxide inhibition, F845
- Amino acids**
compartmentation in rat kidney, F154
transport, system A for, osmoregulation in MDCK cells, F419
- p-Aminohippurate**
transport by brush-border membranes, F61
- Ammonium**
secretion, regulation of, F432
transport, F691
- Amylin**
in renal physiology, F289
- Androgens**
regulation of renal *oatp* expression, F332
- Anemia**
erythropoietin therapy for, in uremia, effects on insulin, F839
- Angiogenesis**
in embryonic kidney, F890
- Angiotensin**
ANG-(1-7), renal actions of, F141
- Angiotensin converting enzyme inhibitors**
and albuminuria, in nephrotic rats, F986
effect on sodium-potassium ATPase distribution along rat nephron, after subtotal nephrectomy, F997
- Angiotensin II**
and gastric sodium monitor, F406
and neural control of chloride absorption in rat proximal tubule, F1049
plasma levels, and systemic nitric oxide inhibition, F845
renal arteriolar response to, effects of DIDS on, F718
renal effects
calcium signaling pathways in, F398
in spontaneously hypertensive rats, F749
and renal structural and functional adaptation to uninephrectomy, F776
- Angiotensin II receptors**
AT₁, and exaggerated tubuloglomerular feedback activity, in spontaneously hypertensive rats, F749
- Angiotensinogen**
expression, regulation by dietary salt, F1027

- Anion transport**
in inner medullary collecting duct cells, effects of cAMP on, F131
- Annexin II**
inhibition of G protein-regulated phospholipase C, F682
- Antibody**
effects on renal hemodynamics, F179
- Antidiuretic hormone**
stimulation of water and sodium transport, role of nitric oxide in, F206
- Apoptosis**
cisplatin-induced, in renal tubular cells, F700
in removal of intercalated cells during renal development, F575
of renal proximal tubular cells, F-actin and, F593
TNF-induced, in renal epithelial cells, tissue remodeling during, F869
- Aquaporin-2**
downregulation with bilateral ureteral obstruction, F657
recycling of, F548
- Arachidonic acid**
metabolites, formation in rat kidney, stereospecific effects of epoxyeicosatrienoic acids on, F822
- Arginine**
renal handling of, F154
- L-Arginine**
effect on myoglobin-induced acute renal failure, F784
- Arginine vasopressin, see Vasopressin**
- Ascites**
fluid movement in, F377
- Atrial natriuretic peptide**
effects on renal tubular sodium reabsorption, F283
plasma levels, and systemic nitric oxide inhibition, F845
and postprandial natriuresis, F301
signaling, inhibition by mesangial cell thromboxane A₂ receptors, F31
- Atrial natriuretic peptide receptors**
B-type, F440
C-type, expression in mesangial cells, effects of dexamethasone on, F440
- Autoregulation, renal**
see also Tubuloglomerular feedback
endothelial calcium in afferent arterioles and, F170
mechanisms of, F82
medullary, F833

B

- Barrier function, see Permeability**
- Bicarbonate ion**
absorption, F691
inhibition by AVP, reversal by PGE₂, by activation of PKC, F978
regulation by PGE₂ and G proteins, F711
transport, in inner medullary collecting duct cells, F131
- Bladder, urinary**
immortalized cell lines from, sodium absorption in, F148
progesterone-regulated water channels, in *Bufo arenarum*, F880

Blood pressure

see also **Hypertension**

effects of systemic nitric oxide inhibition on, F845
spontaneous fluctuations, and renal blood flow dynamics, F82

Bradykinin B₂ receptors, renal

cellular localization of, F919
developmental expression of, salt loading and, F425

Bromosulphophthalein

transport, oatp-mediated, in mammalian cells, F319

Brush-border membranes, see Membranes, brush-border**Bufo arenarum**

progesterone-regulated water channels, in oocytes and urinary bladder, F880

C**Cadherin**

in tissue remodeling, with TNF-induced apoptosis in renal epithelial cells, F869

Caffeine

cytosolic calcium response to, in osteoclasts, F469
renal effects of, F263

Calbindin D_{28k}

mRNA, and vitamin D receptor mRNA, RT-PCR microlocalization in murine nephron, F677

Calcium channels

role in protein tyrosine kinase activation by endothelin-1, F790

Calcium ion

cytosolic, response to ruthenium red and cADP ribose, in osteoclasts, F469
endothelial, in afferent arterioles, F170
mobilization in inner medullary collecting duct, and signaling pathways for V₂ receptor, F623
in proximal tubule cell injury, F39
reabsorption, inhibition by P_{2u} purinoceptors, F53
in regulation of renin release, F718
signaling
in angiotensin II-induced renal vasoconstriction, F398
in epithelial cells of cortical thick ascending limb, F411
in response to endothelin, in renal mesangial cells, F960

Calcium oxalate monohydrate crystals

adhesion to anionic sites on renal epithelial cell surface, F192
urine concentrations of, F604

Calcium phosphate

supersaturation of loop of Henle, F604

Calcium receptor

osteoclast, F469
regulation by vitamin D, F454

Carbon dioxide

permeability, in brush border model, F344

Catenin

in tissue remodeling, with TNF-induced apoptosis in renal epithelial cells, F869

Cell death

apoptotic, see **Apoptosis**

cisplatin-induced, in renal tubular cells, F700

nonapoptotic, in removal of intercalated cells during renal development, F575

Ceramide

effects on sphingolipid-regulated proliferation of renal cells, F476

Chloride/bicarbonate exchanger

in inner medullary collecting duct cells, F131

Chloride channels

in afferent arterioles, effects of blockade by DIDS, F718
in basolateral renal medullary vesicles, F1066
outwardly rectifying, in kidney, F1038

Chloride ion

absorption in medullary thick ascending limb, basolateral chloride channel mediating, F1066
renal/urinary excretion, regulation of, F301
transport
in inner medullary collecting duct cells, F131
in rat S1 proximal tubule, α_1 -adrenergic control of, F1049

Cisplatin

induction of apoptosis in renal tubular cells, F700

Collagen

synthesis by mesangial cells
effects of IL-4 on, F447
and phenotypic shift in nodular culture, F614
type I, and mesangial cells, F960

Complement

effects on renal hemodynamics, F179

Complementary DNA

rbClC-Ka, chloride channels encoded by, in basolateral medullary thick ascending limb, F1066

Conductance

in renal pelvis, variations in, F567

Corticosteroids

effects on thiazide-sensitive NaCl transport by rat renal distal tubules, F211

Countercurrent multiplier

passive, F9

Cyclopentyltheophylline

renal effects of, F263

Cyclosporin A

P-glycoprotein overexpression induced by, F756

Cystic fibrosis

renal pathology in, F1038

Cystic fibrosis transmembrane conductance regulator, renal

expression in cortical collecting duct cells, F237
wild type and functional isoform, F1038

Cytoskeleton, actin

and proximal tubule injury, F39
ultrastructure, and apoptosis of renal proximal tubular cells, F593

D

1,25-(OH)₂D₃, see **1,25-Dihydroxyvitamin D**

Development, see Maturation**Dexamethasone**

effects on ANP C-receptor protein in mesangial cells, F440

Diabetes insipidus

nephrogenic, F657

Diabetes mellitus

nephropathy in, pathophysiology of, F812

Dialysis

peritoneal, fluid movement in, F377

1,25-Dihydroxyvitamin D

calcium receptor regulation by, F454

1,25-Dihydroxyvitamin D receptor

expression, and calbindin D_{28k} expression, in murine nephron, F677

1,3-Dimethyl-8-cyclopentylxanthine, see Cyclopentyltheophylline**Diuretics**

postobstructive, recovery from, F657
and renal response to adrenomedullin, F200
role of nitric oxide in, F200, F206

Dopamine

in urine, source for, F862

Dopamine receptors

DA₁/DA₂ interactions, in proximal tubule of spontaneously hypertensive rats, F90

E**Edema**

cellular, with shock and resuscitation, F1
interstitial, with shock and resuscitation, F1

Electrical mapping

in renal pelvis, F567

Enalapril

and albuminuria, in nephrotic rats, F986

effect on sodium-potassium ATPase distribution along rat nephron, after subtotal nephrectomy, F997

Endothelin

calcium signaling in response to, in renal mesangial cells, F960
in cerebral natriuresis, after renal denervation, F510
ET-1, protein tyrosine kinase activation by, calcium channels and, F790

Epidermal growth factor

expression in acute renal failure, F21

Epithelial cells, bladder

immortalized, F148

Epithelial cells, endolymphatic sac

natriuretic hormone production by, F1073

Epithelial cells, renal

apoptosis
cisplatin-induced, F700
TNF-induced, tissue remodeling during, F869
of cortical thick ascending limb, sodium/calcium exchanger in, F411, F953
LLC-PK₁
adenosine A₁ receptors, effects of up-regulation of, F263
aquaporin-2 water channel recycling in, demonstration of, F548
Na-P_i and Na-SO₄ cotransporter expression in, F220
TNF-induced apoptosis in, tissue remodeling during, F869
transepithelial sodium transport in, extracellular cGMP and, F283

- rescue from oxidative stress, F971
 sphingolipid-regulated proliferation, F476
 surface anionic sites, adhesion of calcium oxalate monohydrate crystals to, F192
 survival after ATP depletion, effects of prior heat stress, F1057
Epoxyeicosatrienoic acids
 stereospecific effects on renal vascular tone and potassium channel activity, F822
Erythropoietin
 correction of anemia by, effects on insulin resistance and hyperinsulinemia in uremia, F839
Estradiol 17 β -D-glucuronide
 transport, by oatp, F326
Estrogens
 renal oatp expression and, F332

F

- Fibronectin**
 mesangial synthesis, TGF- β 1 and, F812
Flounder, see Pseudopleuronectes americanus
Fluid loss
 peritoneal, F377
Fluids
see also Water
 reabsorption, in cortical collecting ducts, F206
Fluid therapy
 for hypovolemic shock, in rats, F1
Fluorescence ratio imaging
 in outer medullary collecting duct cells, F116
Focal adhesion kinase
 activity in thrombin-induced signal transduction pathway, F295
Free radicals, see Reactive oxygen species

G

- Gene expression**
 angiotensinogen, regulation by dietary salt, F1027
 bradykinin B₂ receptor
 in human kidney, F919
 renal, developmental expression of, salt loading and, F425
 cystic fibrosis transmembrane conductance regulator, in kidney, F1038
 in cortical collecting duct cells, F237
 epidermal growth factor, in acute renal failure, F21
 hydrogen-potassium ATPase α -subunit, in kidney, effects of hypokalemia on, F557
 kallikrein, renal, developmental expression of, salt loading and, F425
 low-molecular-weight kininogen, in human kidney, F919
 matrix metalloproteinase-9, regulation in renal mesangial cells, F123
 meprin, in experimental hydronephrosis, F669
 NHE-3, in OKP cells, effects of glucocorticoids on, F164
 nitric oxide synthase, regulation by dietary salt, F1027
 organic anion transporter oatp, renal, regulation by testosterone, F332

- P-glycoprotein, induced by cyclosporin A, F756
 renin, regulation by dietary salt, F1027
 sodium-potassium ATPase, in inner medullary collecting duct cells, effects of hyperosmolality on, F728
 stromelysin, induction by pyrrolidine dithiocarbamate, in mesangial cells, F806
 TGF- β 1, in regenerating renal tubule after ischemic injury, F500
 vitamin D receptor, and calbindin D_{28k} expression, in murine nephron, F677
Gentamicin
 inhibition of carrier-mediated dipeptide transport in kidney, F531
 nephrotoxicity
 expression of basolateral transporters in, F245
 pathophysiology of, F531
Gestation, see Pregnancy
Glomerular filtration rate, see Kidney, glomerular filtration rate
Glomeruli, see Kidney, glomerulus
Glomerulonephritis
 pathophysiology of, F447
Glomerulosclerosis
 rat model of, F356
Glomerulotubular balance
 in euvoolemia, F461
Glucocorticoids
 effects on ANP C-receptor protein in mesangial cells, F440
 effects on NHE-3 transcription in OKP cells, F164
Glucose
 plasma levels, elevation, effects on mesangial cells, F812
 transport, adenosine and, F263
Glucose transporters
 GLUT-1, expression in renal tubules, gentamicin nephrotoxicity and, F245
Glycosphingolipid
 synthesis, and renal cell proliferation, F476
G proteins
 phospholipase C regulated by, annexin II inhibition of, F682
 regulation of HCO₃⁻ absorption in medullary thick ascending limb, F711
Guanine nucleotide-binding proteins, see G proteins
Guanosine 3',5'-cyclic monophosphate
 and effect of nitrates in renal proximal tubule, F106
 extracellular, effects on sodium transport in LLC-PK₁ cells, F283
Guanylate cyclase
 stimulation by nitric oxide, in renal proximal tubule, F106
Guanylyl cyclase
 signaling, and mesangial cell thromboxane A₂ receptors, F31
 type B, distribution and regulation in rat nephron, F311

H

- Heat stress**
 effects on survival of renal epithelial cells after ATP depletion, F1057

- Heparan sulfate proteoglycan**
 mesangial synthesis, TGF- β 1 and, F812
Hydrogen ATPase
 and activation of apical membrane of type A intercalated cells, F649
Hydrogen-potassium ATPase
 apical, in intercalated cells of cortical collecting duct, F518, F539
 colonic, α -subunit, in renal inner medullary collecting duct cells in culture, F852
 gastric, α -subunit, in renal inner medullary collecting duct cells in culture, F852
 in inner medullary collecting duct cells, role in intracellular pH regulation, F852
 in outer medullary collecting duct cells, F116
 α -subunit, expression in kidney
 effects of hypokalemia on, F557
 in inner medullary collecting duct cells in culture, F852
Hydronephrosis
 experimental, meprin expression in, F669
Hyperglycemia
 effects on mesangial cells, F812
Hyperinsulinemia
 in uremia, effects of correction of anemia by erythropoietin, F839
Hyperosmolality
 effects on sodium-potassium ATPase expression in inner medullary collecting duct cells, F728
 regulation of, F711
Hyperparathyroidism
 pathophysiology of, F454
Hypertension
 pathogenesis
 amylin in, F289
 annexin II in, F682
 and renal sodium transporters, F1004
 in spontaneously hypertensive rats
 angiotensin-II induced renal vasoconstriction in, F945
 angiotensin-II induced structural and functional renal alterations in, F229
 exaggerated tubuloglomerular feedback activity in, F749
 renal DA₁/DA₂ dopamine receptor interactions in, F90
 and systemic nitric oxide inhibition, F845
Hypokalemia
 effects on renal expression of gastric H⁺-K⁺-ATPase α -subunit gene, F557
Hypothyroidism
 renal hemodynamic abnormalities of, adenosine and, F254

I

- myo-Inositol**, osmoregulatory role in JS1 Schwann cells, F90
Insulin
 plasma levels, in uremia, effects of correction of anemia by erythropoietin, F839

Insulin resistance

in uremia, effects of correction of anemia by erythropoietin, F839

Interleukins**IL-1 β**

and activation of mitogen-activated protein kinases in renal mesangial cells, F634

and matrix metalloproteinase-9 expression in mesangial cells, F123

IL-4, effects on collagen synthesis by mesangial cells, F447

Intestine

flounder, sodium-phosphate cotransporter, F937

I_{Na}*, see Short-circuit current*Ischemia, renal**

altered EGF expression and thyroxine metabolism in, F9

recovery after, F9

TGF- β 1 expression in regenerating renal tubule after, F500

K**Kallikrein-kinin system**

effects of salt loading on, F425

Kidney

acid secretion, F691

afferent arterioles

chloride channels in, effects of blockade by DIDS, F718

endothelial calcium in, F170

amino acid compartmentation in, F154

arterioles

calcium-activated potassium channels in, F69

stereospecific effects of epoxyeicosatrienoic acids on, F822

blood flow

angiotensin-(1-7) and, F141

dynamics, and spontaneous blood pressure fluctuations, F82

and effect of L-arginine on myoglobin-induced renal vasoconstriction, F784

effects of angiotensin II on, F398, F945

endothelial calcium in afferent arterioles and, F170

medullary, autoregulation of, F833

cells, see **Kidney cells**

collecting ducts, active NaCl reabsorption, effects on renal concentrating mechanism, F904

collecting ducts, cortical

ADH-stimulated osmotic water permeability in, inhibition by nitric oxide, F206

differential expression of protein kinase C isoforms in, F766

feedback regulation of sodium channels in, PKC activation and, F371

postnatal maturation of sodium transport in, F391

transcellular sodium and calcium transport in, F53

collecting ducts, inner medullary

dual signaling pathways for V₂ vasopressin receptor in, F623

net acid secretion in, ammonium and, F432

cortex

amylin binding in, F289

meprin expression, in experimental hydronephrosis, F669

development, removal of intercalated cells during, F575

diseases of, see **Kidney diseases**

embryonic, origin of glomerular endothelial and mesangial cells in, F890

failure, see **Kidney failure**

flounder, sodium-phosphate cotransporter, F937

function

adenosine and, F254

angiotensin-(1-7) and, F141

glomerular filtration rate, effects of systemic nitric oxide inhibition on, F845

glomerulotubular balance, see **Glomerulotubular balance**

glomerulus

compliance, in partially nephrectomized rat, F356

immune injury, F179

permselectivity, in pregnancy, F338

volume regulation, F356

hemodynamics

effects of adrenomedullin on, F200

effects of antibody and complement on, F179

in hypothyroidism, adenosine and, F254

in pregnancy, F338

stereospecific effects of epoxyeicosatrienoic acids on, F822

during systemic nitric oxide inhibition, F845

Henle's loop, calcium phosphate supersaturation in, F604

Henle's loop, thick ascending limb

apical membrane sodium/hydrogen exchange in, F691

chloride absorption in, chloride channel mediating, F1066

epithelial cells, F411, F953

HCO₃⁻ absorption in, F711

medullary segment, bicarbonate absorption in, PKC and, F978

osmotic regulation of sorbitol in, F275

human

low-molecular-weight kininogen and bradykinin B₂ receptors, cellular localization of, F919

PGE₂ receptor subtypes, differential localization of, F912

injury, expression of basolateral transporters in, F245

medulla

inner, anatomy, effects on renal concentrating mechanism, F904

mathematical model of concentrating mechanism, F9, F904

mesangium, and glomerular volume regulation, F356

nephron

distribution and regulation of guanylyl cyclase type B in, F311

RT-PCR microlocalization of vitamin D receptor and calbindin D_{28k} mRNAs in, F677

sodium-potassium ATPase distribution along, after subtotal nephrectomy, effects of enalapril on, F997

pelvis, variations in pacemaking and conduction in, F567

plasma flow, effects of systemic nitric oxide inhibition on, F845

rainbow trout, electrodiffusive transport of magnesium across membrane vesicles, F739

remnant, glomerulosclerosis in, F356

shark, immunolocalization of sodium-potassium-chloride cotransporter in, F927

sodium transporters, rapid redistribution and inhibition, during acute pressure natriuresis, F1004

tubules, distal, thiazide-sensitive NaCl transport by, effects of corticosteroids on, F211

tubules, postischemic expression of TGF- β 1, F500

tubules, proximal

α ₁-adrenergic control of, in rat S1 proximal tubule, F1049

angiotensin-(1-7) and, F141

α _{2B}-adrenergic receptors in, in rat, F1015

DA₁/DA₂ dopamine receptor interactions in, in spontaneously hypertensive rats, F90

effects of nitric oxide in, F106

expression of basolateral transporters in, gentamicin nephrotoxicity and, F245

expression of Na-Pi and Na-SO₄ cotransporters, F220

injury, F39

luminal unstirred layer, F344

tubuloglomerular feedback mechanism, see **Tubuloglomerular feedback mechanism**

vascular tone, stereospecific effects of epoxyeicosatrienoic acids on, F822

vasoconstriction, effects of angiotensin II on, calcium signaling pathways in, F398

Kidney cells

collecting duct

anion transport in, effects of cAMP on, F131

cystic fibrosis transmembrane conductance regulator expression in, F237

hydrogen-potassium ATPase, F852

pH in, effects of cAMP on, F131

sodium-potassium ATPase expression in, effects of hyperosmolality on, F728

of distal nephron, sodium channels, regulation by luminal adenosine receptors, F798

epithelial

adhesion of calcium oxalate monohydrate crystals to, F192

cisplatin-induced apoptosis in, F700

cortical thick ascending limb, F411, F953

LLC-PK₁

aquaporin-2 water channel recycling in, demonstration of, F548

effects of upregulation of adenosine A₁ receptors in, F263

- expression of Na-P_i and Na-SO₄ co-transporters, F220
- TNF-induced apoptosis in, tissue remodeling during, F869
- transepithelial sodium transport in, extracellular cGMP and, F283
- rescue from oxidative stress, F971
- sphingolipid-regulated proliferation, F476
- survival after ATP depletion, effects of prior heat stress, F1057
- TNF-induced apoptosis in, tissue remodeling during, F869
- glomerular endothelial, embryonic origin of, F890
- intercalated, of cortical collecting duct apical hydrogen-potassium ATPase in, F518, F539
- apical insertion of studded membrane in, F649
- removal during development, F575
- Madin-Darby canine
- expression of Na-P_i and Na-SO₄ co-transporters, F220
- osmoregulation of system A in, F419
- mesangial
- ANP C-receptor protein in, effects of glucocorticoids on, F440
- collagen synthesis by, effects of IL-4 on, F447
- differentiation in culture, F614
- embryonic origin of, F890
- and glomerular volume regulation, F356
- heparan sulfate proteoglycan synthesis, TGF- β 1 and, F812
- JNK activity, F634
- proliferation, type I collagen and, F960
- protein tyrosine kinase, activation by endothelin-1, F790
- stromelysin expression, induction by pyrrolidine dithiocarbamate, F806
- thrombin-induced signal transduction in, F295
- thromboxane A₂ receptors, F31
- transcriptional regulation of matrix metalloproteinase-9 in, F123
- OK (opossum kidney)
- effects of upregulation of adenosine A₁ receptors in, F263
- NHE-3 transcription in, effects of glucocorticoids on, F164
- proliferation, sphingolipids and, F476
- tubular, proximal
- apoptosis, F-actin and, F593
- cisplatin-induced apoptosis in, F700
- expression of Na-P_i and Na-SO₄ co-transporters, F220
- Kidney diseases**
- diabetic nephropathy, pathophysiology of, F812
- glomerulonephritis, pathophysiology of, F447
- glomerulosclerosis, rat model of, F356
- nephrocalcinosis, pathogenesis of, F604
- nephrolithiasis, pathogenesis of, F192, F604
- uremia, insulin in, effects of correction of anemia by erythropoietin, F839
- Kidney failure, acute**
- epidermal growth factor expression in, F21
- myoglobin-induced, effect of L-arginine on, F784
- Kininogen**
- low-molecular-weight, human renal, cellular localization of, F919
- L**
- Lithium**
- clearance during systemic nitric oxide inhibition, F845
- M**
- Magnesium ion**
- electrodiffusive transport in rainbow trout kidney, F739
- Mathematical modeling**
- of acid/base transport in proximal tubule brush border, F344
- of urine concentrating mechanism, F9, F904
- Matrix metalloproteinases**
- MMP-3, gene expression, transcriptional regulation in renal mesangial cells, F806
- MMP-9, gene expression, transcriptional regulation in renal mesangial cells, F123
- Maturation, renal**
- and apical sodium conductance in principal cells, of rabbit, F391
- removal of intercalated cells during, F575
- Membranes, brush-border**
- P-glycoprotein overexpression in, F756
- vesicles
- electrodiffusive transport of magnesium across, F739
- urate and *p*-aminohippurate transport in, F61
- Ménière's disease**
- pathophysiology of, F1073
- Meprin**
- expression in experimental hydronephrosis, F669
- Messenger RNA**
- bradykinin B₂ receptor, cellular localization in human kidney, F919
- cystic fibrosis transmembrane conductance regulator, expression in renal cortical collecting duct cells, F237
- kininogen, cellular localization in human kidney, F919
- NHE-3, in OK cells, effects of glucocorticoids on, F164
- nitric oxide synthase, renin, and angiotensinogen, coordinate regulation by dietary salt, F1027
- parathyroid hormone/parathyroid hormone-related peptide receptor, localization in kidney, F186
- vitamin D receptor and calbindin D_{28k}, RT-PCR microlocalization in murine nephron, F677
- Metalloendopeptidase**
- expression in renal cortex, in experimental hydronephrosis, F669
- Methodologies**
- for analyzing differential expression of protein kinase C isoforms in fresh and cultured cortical collecting ducts, F766
- for analyzing nitric oxide synthase, renin, and angiotensinogen mRNA in rat kidney, F1027
- for cellular localization of human renal kininogen and bradykinin B₂ receptors, F919
- for cloning and expression of rabbit prostaglandin EP₄ receptor, F485
- for cloning and expression of renal sodium-dicarboxylate cotransporter, F642
- for cloning chloride channels, F1066
- for cortical collecting duct culture, F766
- for demonstrating aquaporin-2 water channel recycling, F548
- for differential localization of human renal PGE₂ receptors, F912
- for electrical mapping in renal pelvis, F567
- for fluorescence determinations in epithelial cells of cortical thick ascending limb, F411, F953
- for fluorescence ratio imaging, in outer medullary collecting duct cells, F116
- for imaging endothelial calcium in afferent arterioles, F170
- for immortalizing human bladder cell lines, F148
- for immunocytochemical studies of Na-K-Cl cotransporter of shark kidney, F927
- for immunolocalization of $\alpha_{2\beta}$ -adrenergic receptors in rat kidney, F1015
- for laser-Doppler flowmetry, in renal medulla, F833
- for localizing guanylyl cyclase type B in nephron, F311
- for oatp cDNA expression in mammalian cells, F319
- for parathyroid hormone/parathyroid hormone-related peptide receptor mRNA localization in kidney, F186
- for reverse transcription-polymerase chain reaction analysis of PKC mRNA in rabbit cortical collecting ducts, F766
- of renin mRNA in rat, F776
- of vitamin D receptor and calbindin D_{28k} mRNAs in murine nephron, F677
- of V₂ receptor mRNA in rat collecting duct, F623
- for transfection of Na-P_i and Na-SO₄ cotransporters in MDCK and LLC-PK₁ cells, F220
- for videometric flow velocimetry, F461
- 3-O-Methyldopa**
- demethylation in kidney, as source for urinary dopamine, F862
- Modeling in physiology**
- of glomerular hemodynamics and barrier function in pregnancy, F338
- mathematical
- of acid/base transport in proximal tubule brush border, F344
- of urine concentrating mechanism, F9, F904
- of proximal tubule brush border, acid/base transport in, F344
- of renal concentrating mechanism, F9, F904
- Multidrug resistance**
- P-glycoprotein overexpression and, F756

Muscle, smooth

- endothelial, myogenic activity, F170
- G protein-regulated inositol triphosphate formation in, annexin II inhibition of, F682
- renal arteriolar, calcium-activated potassium channels in, F69
- vascular
 - effects of angiotensin II on, protein kinase C in, F945
 - stereospecific effects of epoxyeicosatrienoic acids on, F822

Myoglobin

- renal vasoconstriction caused by, effect of L-arginine on, F784

N**Natriuresis**

- cerebral
 - after renal denervation, F510
 - in rat, F1073
- postprandial, urodilatin and, F301
- pressure-induced, and renal sodium transporters, F1004
- and renal response to adrenomedullin, F200
- in response to gastric sodium monitor, angiotensin II and, F406
- role of nitric oxide in, F200, F206

Natriuretic hormone

- production in inner ear, F1073

Natriuretic peptide

- atrial, *see* **Atrial natriuretic peptide**
- C-type
 - in mesangial cells, F440
 - in nephron, F311

Nephrectomy

- circulating and intrarenal renin levels after uninephrectomy, F776
- subtotal, sodium-potassium ATPase distribution along rat nephron after, effects of enalapril on, F997

Nephritis

- passive Heymann, albumin excretion in, effect of dietary protein and enalapril on, F986

Nephrocalcinosis

- pathogenesis of, F604

Nephrolithiasis

- pathogenesis of, F192, F604

Nephropathy

- diabetic, pathophysiology of, F812

Nephrotoxicity

- of gentamicin, F245, F531

Newborn

- apical sodium conductance in principal cells, of rabbit, F391

NHE, *see* Sodium/hydrogen exchangers**Nitric oxide**

- in arterial vasodilation in cirrhosis, F494
- and effect of L-arginine on myoglobin-induced renal vasoconstriction, F784
- effects in renal proximal tubule, F106
- inhibition of ADH-stimulated osmotic water permeability in cortical collecting ducts, F206
- role in renal response to adrenomedullin, F200
- synthesis, systemic inhibition of, renal hemodynamics during, F845

Nitric oxide synthase

- endothelial constitutive, in aortas from cirrhotic rats, F494
- expression, regulation by dietary salt, F1027
- inducible
 - antisense oligonucleotides to, in rescue of epithelial cells from oxidative stress, F971
 - in aortas from cirrhotic rats, F494

Nuclear factors

- NF- κ B, and matrix metalloproteinase-9 expression in mesangial cells, F123

O***Oncorhynchus mykiss*, *see* Rainbow trout****Oocytes**

- Bufo arenarum*, progesterone-regulated water channels in, F880

Opossum kidney (OK, OKP) cells, *see* Kidney cells, OK (opossum kidney)**Organic anion transport**

- in mammalian cells, F319
- steroid hormones and, F319, F326, F332

Organic anion transporter, oatp

- estradiol 17 β -D-glucuronide transport by, F326
- in mammalian cells, F319
- renal expression, regulation by testosterone, F332

Osmolytes, organic

- in rat kidney, F154
- in renal medulla, F419
- in thick ascending limb of Henle's loop, F275

Osmoregulation

- in JS1 Schwann cells, polyol pathway and, F90
- of system A amino acid transport, in MDCK cells, F419
- in thick ascending limb of Henle's loop, role of sorbitol in, F275

Osteoclasts

- cytosolic calcium in, effects of ruthenium red and cADP ribose on, F469

Oxidative stress

- renal epithelial cell rescue from, F971

P**Pacemaking**

- in renal pelvis, variations in, F567

Parathyroid hormone

- secretion, regulation of, F454

Parathyroid hormone receptors

- mRNA, localization in kidney, F186

Parathyroid hormone-related peptide receptor

- mRNA, localization in kidney, F186

Peptides

- carrier-mediated transport in kidney, gentamicin and, F531

Peritoneal cavity

- fluid movement from, F377

Peritoneal dialysis

- fluid movement in, F377

Permeability

- glomerular, in pregnancy, F338

P-glycoprotein

- overexpression, induced by cyclosporin A, F756

pH, intracellular

- in rat renal medullary thick ascending limb, F691
- regulation in cortical collecting duct B-type intercalated cell, F518
- in renal inner medullary collecting duct cells
 - effects of cAMP on, F131
 - regulation, in culture, F852

Phosphates

- excretion, renal regulation of, F220
- inorganic, transport, in flounder, F937

Phospholipase C

- G protein-regulated, annexin II inhibition of, F682

Polyol pathway

- and osmoregulation in JS1 Schwann cells, F90

Potassium channels, renal

- activity, stereospecific effects of epoxyeicosatrienoic acids on, F822
- calcium-activated, in arterioles, F69

Potassium ion

- conservation
 - in cortical collecting duct, during potassium deprivation, F557
 - in outer medullary collecting duct cells, F116
- depletion
 - and activation of apical membrane of type A intercalated cells, F649
 - effects on $\alpha_2\beta$ -adrenergic receptors in rat kidney, F1015
 - effects on renal expression of gastric H⁺-K⁺-ATPase α -subunit gene, F557

Pregnancy

- glomerular hemodynamics and barrier function in, F338

Progesterone

- inhibition of water permeability, in *Bufo arenarum* oocytes and urinary bladder, F880

Prostaglandin receptors

- E, subtypes, differential localization in human kidney, F912
- EP₄, from rabbit, cloning and expression of, F485

Prostaglandins, PGE₂

- EP₄ receptor, cloning and expression of, F485
- regulation of HCO₃⁻ absorption in medullary thick ascending limb, F711
- renal effects, mechanism of, F485
- reversal of AVP inhibition of bicarbonate absorption, by activation of PKC, F978
- signal transduction in medullary thick ascending limb, F978

Protein, dietary

- and proximal tubular delivery and absorption of albumin, F986
- and urinary albumin excretion, F986

Protein kinases

- mitogen-activated
 - activation in renal mesangial cells, IL-1 β and, F634
 - JNK subgroup, activation in renal mesangial cells, F634

PKC

- activation, and feedback regulation of sodium channels in cortical collecting duct, F371
- activity, renal adenosine A₁ receptor upregulation and, F263

- in angiotensin II-induced renal vasoconstriction, F945
and bicarbonate absorption, in medullary thick ascending limb, F978
and chloride transport in kidney, F1049
isoforms, differential expression in fresh and cultured rabbit cortical collecting duct, F766
role in inhibition of sodium and calcium reabsorption by P_{2u} purinoceptors, F53
- Protein tyrosine kinase**
activation by endothelin-1, calcium channels and, F790
and matrix metalloproteinase-3 expression in mesangial cells, F806
- Pseudopleuronectes americanus***
intestinal and renal sodium-phosphate cotransporters, F937
- Purinergic receptors**
 P_{2u} , inhibition of sodium and calcium reabsorption, F53
and sodium channel regulation in A6 distal nephron cells, F798

R

- Rainbow trout**
electrodiffusive transport of magnesium across renal membrane vesicles of, F739
- Renal, see Kidney**
- Renin**
circulating and intrarenal levels, after uninephrectomy, F776
expression, regulation by dietary salt, F1027
plasma activity, amylin and, F289
release, regulation of, F718
- Renin-angiotensin system**
see also Angiotensin; Angiotensin II
- Reverse transcription-polymerase chain reaction**
of bradykinin B_2 receptor mRNA in human kidney, F919
of low-molecular-weight kininogen mRNA in human kidney, F919
of nitric oxide synthase mRNA in rat, F1027
of PKC mRNA in rabbit cortical collecting ducts, F766
of renin mRNA in rat, F776, F1027
of V_2 receptor mRNA in rat collecting duct, F623
- Reverse transcription-polymerase chain reaction analysis**
of angiotensinogen mRNA in rat, F1027
- Ruthenium red**
cytosolic calcium response to, in osteoclasts, F469
- Ryanodine receptor**
osteoclast calcium receptor and, F469

S

- Saccin**
production, F1073
- Salt, see Sodium chloride**
- Shock**
see also Heat stress
hypovolemic, resuscitated, fluid compartments in, F1
- Short-circuit current**
in anion transport by rat inner medullary collecting duct cells, F131

- in renal tubular transepithelial sodium transport, F283
- Simian virus 40**
in immortalizing human bladder cell lines, F148
- Sodium/calcium exchange**
in cortical thick ascending limb cells, F411, F953
- Sodium/calcium exchanger**
expression in renal tubules, gentamicin nephrotoxicity and, F245
- Sodium channels**
in A6 distal nephron cells, regulation by luminal adenosine receptors, F798
in renal cortical collecting duct, feedback regulation, F371
- Sodium chloride**
active reabsorption in renal collecting ducts, effects on renal concentrating mechanism, F904
intake, effects on developmental expression of renal kallikrein and bradykinin B_2 receptors, F425
regulation of nitric oxide synthase, renin, and angiotensinogen mRNA by, F1027
thiazide-sensitive transport by rat renal distal tubules, effects of corticosteroids on, F211
- Sodium-dicarboxylate cotransporter**
renal, cloning and functional expression of, F642
- Sodium/hydrogen exchange**
apical membrane, in renal medullary thick ascending limb, F691
- Sodium/hydrogen exchangers**
NHE-3
in acute pressure natriuresis, F1004
transcription in OKP cells, effects of glucocorticoids on, F164
in renal inner medullary collecting duct cells, F131
in renal proximal tubule, F106
- Sodium ion**
absorption, in immortalized human bladder cell lines, F148
apical conductance, in maturing rabbit principal cell, F391
cerebral concentration, renal denervation and, F510
homeostasis, angiotensin II in, F406
reabsorption, inhibition by P_{2u} purinoceptors, F53
renal transporters, rapid redistribution and inhibition, during acute pressure natriuresis, F1004
renal/urinary excretion
see also Natriuresis
effects of systemic nitric oxide inhibition on, F845
regulation of, F301
transport
coupling of urate and *p*-aminohippurate transport to, in brush-border membrane vesicles, F61
postnatal maturation, in cortical collecting ducts, F391
renal, angiotensin-(1-7) and, F141
in renal proximal tubule, regulation by nitric oxide, F106
transepithelial, in LLC-PK₁ cells, extracellular cGMP and, F283

- Sodium monitor**
gastric, angiotensin II and, F406
- Sodium nitroprusside**
effects on renal tubular sodium reabsorption, F283
- Sodium-phosphate cotransport**
in renal proximal tubule, F106
- Sodium-phosphate cotransporters, renal**
in flounder, comparison with intestinal cotransporter, F937
transfection in MDCK and LLC-PK₁ cells, F220
- Sodium-potassium ATPase**
activity during acute pressure natriuresis, F1004
basolateral membrane, and renal ammonium pathway, F432
distribution along rat nephron, after subtotal nephrectomy, effects of enalapril on, F997
expression in inner medullary collecting duct cells, effects of hyperosmolality on, F728
 α_1 -subunit, expression in renal tubules, gentamicin nephrotoxicity and, F245
- Sodium-potassium-chloride cotransporter**
immunolocalization, in shark kidney, F927
- Sodium-pyrazinoate cotransport**
brush-border membrane vesicle studies, F61
- Sodium-sulfate cotransporters, renal**
transfection in MDCK and LLC-PK₁ cells, F220
- Sorbitol**
osmotic regulation
in JS1 Schwann cells, F90
in thick ascending limb of Henle's loop, F275
- Steroid hormones**
as o_{atp} substrates, F319, F326
- Stromelysin**
expression, induction by pyrrolidine dithiocarbamate, F806
- Sulfate**
excretion, renal regulation of, F220

T

- Testosterone**
regulation of renal o_{atp} expression, F332
- Thrombin**
stimulation of association of adaptor protein with cytoplasmic tyrosine kinase pp125^{FAK}, F295
- Thromboxane**
and glomerular immune injury, F179
- Thromboxane A₂ receptors**
in rat mesangial cells, F31
- Thyroid hormones**
thyroxine, metabolism in acute renal failure, F21
- Thyroxine**
metabolism in acute renal failure, F21
- Tight junctions**
in tissue remodeling, with TNF-induced apoptosis in renal epithelial cells, F869
- Toad, see Bufo arenarum**

Transfection

of Na-P_i and Na-SO₄ cotransporters in MDCK and LLC-PK₁ cells, F220

Transforming growth factor

TGF- β 1

effects on heparan sulfate proteoglycan synthesis, F812

increased expression in renal tubules after ischemic injury, F500

TGF- β , in phenotypic shift of glomerular mesangial cells in nodular culture, F614

Trout, rainbow, see Rainbow trout**Tubuloglomerular feedback mechanism**

exaggerated activity in genetic hypertension, F749

homeostatic efficiency of, F461

resetting, tubular flow and, F461

and sodium transport in distal nephron, F798

Tumor necrosis factor

apoptosis induced by, in renal epithelial cells, tissue remodeling during, F869

U**Urate**

transport, by brush-border membranes, F61

tubular reabsorption of, F61

Urate/anion exchanger

brush-border membrane vesicle studies of, F61

Urea transporters

molecular structure of, F554

Uremia

insulin in, effects of correction of anemia by erythropoietin, F839

Ureteral obstruction

bilateral, and postobstructive diuresis, F657

in experimental hydronephrosis, F669

Urinary bladder, see Bladder, urinary**Urine**

concentrating mechanism

model of, F904

renal inner medulla, mathematical

model of, F9, F904

dopamine in, source for, F862

Urodilatin

and postprandial natriuresis, F301

renal excretion, after renal denervation, F510

V**Vasculogenesis**

in embryonic kidney, F890

Vasoactive peptides

effects of systemic nitric oxide inhibition on, F845

Vasoconstriction, renal

angiotensin II-induced

calcium signaling pathways in, F398

protein kinase C in, F945

myoglobin-induced, effect of L-arginine on, F784

Vasodilation

arterial, nitric oxide in, in cirrhosis, F494

Vasopressin

and differential expression of protein kinase C isoforms in fresh and cultured cortical collecting ducts, F766

inhibition of bicarbonate absorption,

reversal by PGE₂, by activation of PKC, F978

plasma levels, and systemic nitric oxide inhibition, F845

in regulation of HCO₃⁻ absorption in medullary thick ascending limb, F711

Vasopressin receptors

V₂, dual signaling pathways, in inner medullary collecting duct, F623

Vitamin D, see 1,25-Dihydroxyvitamin D**Volume status**

regulation of, F311

W**Water**

excretion, see **Diuresis**

transport, peritoneal, F377

Water channels

aquaporin-2

downregulation with bilateral ureteral obstruction, F657

recycling of, F548

progesterone-regulated, in *Bufo arena-*
rum oocytes and urinary bladder, F880

Water permeability

progesterone-regulated, in toad oocytes and urinary bladder, F880

of renal cortical collecting ducts, ADH-stimulated, F206

of renal inner medullary collecting duct, effects on renal concentrating mechanism, F904

Western blotting

analysis of PKC isoforms, F766
